

GTR 2018 Timetable Consultation

Phase 3 – weekends & late night trains (2330 – 0500)

Thank you for taking the time to read and respond to our Consultation.

We've finished phase one and two which concentrated on Monday to Friday proposals and now we're consulting on weekend services and late night trains.

The details contained within this consultation represent proposals which will lead up to the biggest timetable change many routes around London and the South East have seen for decades. We are keen for everyone to have their say in shaping the future train service.

Definitions:

Daytime: this refers to train services between 0700 & 1859 on Saturdays or 1000 & 2059 on Sundays.

Evening: this refers to train services between 1900 & 2159 Saturdays.

Bank Holidays – A Saturday service runs except on Christmas Day when there is no service, Boxing Day when a very limited Southern and Gatwick Express service operates and New Year's Day when a Sunday service operates. Subject to any planned engineering works.

RELEASES:

First issue 22 November 2017

Updated 24 November 2017 – amendments to formatting on late night trains for easier reference.

Updated 28 November 2017 – corrections to calling patterns of some overnight trains to Bedford.

FINAL issued 28 Nov 2017

1. Introduction

This phase (phase three) of the consultation sets out proposed changes to the weekend timetable which will be operated by Govia Thameslink Railway (GTR) following completion of the Thameslink Programme.

Phase one and two contained information and timetables on weekday services. Information and timetables on these phases can be found on transformingrail.com.

The GTR franchise is a Management Contract with the Department for Transport (DfT) specifying the service and agreeing any changes. GTR and the DfT are working together to propose changes to the services to provide the capacity and levels of performance required.

GTR operates train services under four local brands, Gatwick Express, Great Northern, Southern and Thameslink as follows:

- **Gatwick Express:** non-stop direct services between London Victoria, Gatwick Airport and Brighton.
- **Great Northern:** connects London with Welwyn Garden City, Hertford, Stevenage, Cambridge, Peterborough, Ely and Kings Lynn.
- **Southern:** frequent Metro service between London and South London and Surrey. Mainline services between London, Gatwick Airport and the Sussex Coast. Coastway services between Brighton, Worthing, Chichester, Portsmouth, Southampton to the West and Lewes, Eastbourne, Hastings and Ashford to the East.
- **Thameslink:** cross-London services linking north and south between Bedford, Brighton, Wimbledon and Sevenoaks.

During 2018 a number of Great Northern and Southern services will be transferred to Thameslink. New services from Kent will also be introduced to provide an expanded cross-London network.

Background to 2018 timetable change

The Thameslink Programme is funded by the government through the DfT, with Network Rail delivering infrastructure improvements, Siemens delivering new trains and GTR providing additional passenger services.

When the Programme completes, it will transform north-south travel through London; journeys will be improved with trains every two to three minutes through central London at peak times.

Improved connections will give you better travel options to more destinations than ever before, modern track will make your journeys more reliable and new trains will provide additional capacity.

Network Rail is carrying out station, track and signalling works, working closely with GTR to minimise disruption to passengers. As part of the Programme, Network Rail will simplify the track layouts on the approaches to London Bridge station which will allow for a more reliable, less congested railway. In order to achieve this, Network Rail will introduce new infrastructure including a major new section of railway.

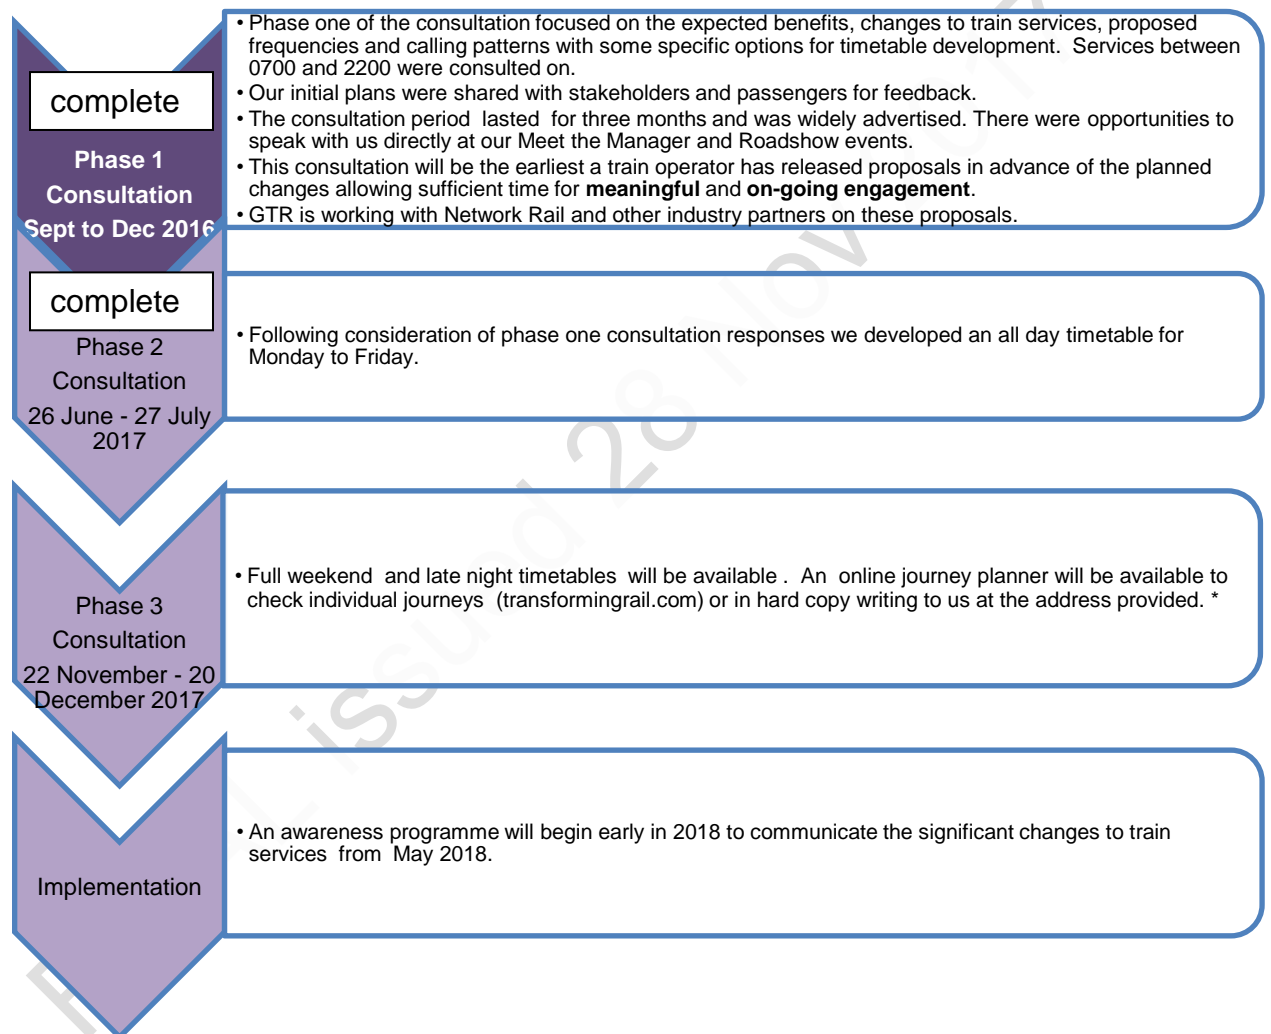

2. Why is GTR consulting?

This consultation seeks to increase our understanding of what service is required to meet the majority of our passengers' needs. Phase one of the consultation focused on calling patterns and frequency for weekday peak and off peak services. In phase two we released detailed timetables for Monday to Friday for comment and now we are consulting on weekend and late night timetables.

The consultation process

The consultation will be undertaken in phases.

This process forms the third phase as described below.

*If you would like to request a hard copy of the timetables please write to the address below.

GTR 2018 Timetable Consultation
East Side Offices
Kings Cross Station
Kings Cross
London N1C 4AP

How to respond to the consultation?

Information provided will only be used for purposes of the consultation and will not be passed outside of GTR or its operating brands Gatwick Express, Great Northern, Southern and Thameslink.

Please respond via the online survey on the website or you can post your responses to:

GTR 2018 Timetable Consultation
East Side Offices
Kings Cross Station
Kings Cross
London N1C 4AP

Or submit feedback via email gtr.timetableconsultation@gtrailway.com

How long will the consultation period last for?

We are keen for as many interested parties as possible, whether as groups or individuals, to be involved in shaping the future train service.

The third stage of the consultation will start on Wednesday 22 November 2017 **and close at 1200 (mid-day) on Wednesday 20 December 2017.**

Alternative Formats

We can provide copies of this documentation in alternative formats by contacting gtr.timetableconsultation@gtrailway.com

3. Our approach to 2018

We know the operational delivery of train services has been very difficult and challenging for passengers during this period with in some cases a reduction in train services whilst London Bridge station is being rebuilt.

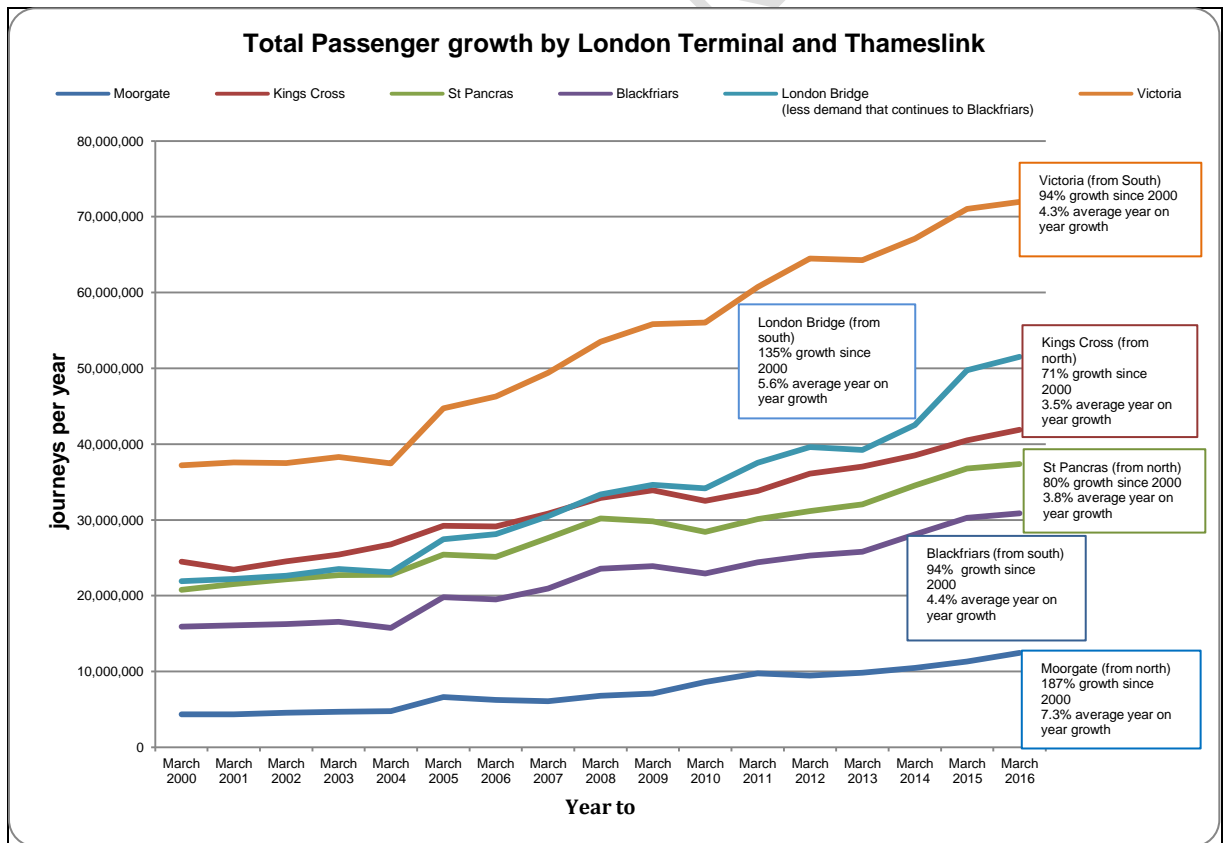

When the Programme is completed there will be new infrastructure, using the latest signalling technology to deliver an improved more frequent service through Central London, and a new fleet of trains which will inject much needed additional capacity throughout the network.

We have adopted a fresh approach to reviewing service provision to ensure proposals can be integrated to provide a timetable which meets passenger needs and ultimately puts the Thameslink route at the heart of the UK rail network.

We have approached the four key priorities for timetable development principles as follows:

Passenger Demand

Over the last decade, growth across our routes and the UK rail system has been exceptional. The chart below shows the total passenger growth by each London terminal and Thameslink route.

Data source: Ticket sales modified by surveys (MOIRA data inspector) Victoria and London Bridge data for Southern Railway only. Gatwick Express included in Victoria. London Bridge from 2008 includes Thameslink services that terminate at London Bridge. Before 2008 this includes Southeastern services via Redhill that transferred to Southern in 2008.

The transformation of the timetable proposed in this document is designed to make optimum use of the enhanced and expanded rail infrastructure, together with additional train carriages to accommodate growing demand providing a step change in service provision and meeting the needs of passengers and this demand throughout the regions we serve for decades beyond.

We have thoroughly analysed passenger demand throughout our network identifying key journeys which has informed our proposals.

Capacity

As part of our proposals we have sought to address current and future passenger demand so far as possible taking into account future developments across our routes.

Our franchise will see a total of 1,514 new build train carriages introduced. This started with a complete replacement of the Gatwick Express fleet with 108 new carriages introduced during 2016, and the 116 new Class 387 vehicles introduced initially on Thameslink, now operating on Great Northern. Introduction of an entire new train fleet of 1,140 carriages for the Thameslink routes is underway and finally an entirely new fleet of 150 carriages for the Great Northern Metro Moorgate routes is due to be completed in 2018.

Operational resilience and robustness

Our proposals include a complete redesign and overhaul of the current timetable.

We have retained elements which work well and have adopted best industry practice and fresh thinking into our proposals.

The proposed timetable will include:

- Increased turnaround times across the network to ensure trains leave on time at the beginning of their journey
- More time at busy stations to allow for the increased number of passengers getting on and off trains
- Additional time between certain locations to reflect the actual running time of the train and ensure right time arrival at critical locations
- Improved intervals between trains and optimised calling patterns (which in a very small number of locations may include a slight reduction from the current levels but still meets demand)
- Train services become 'self-contained' to dedicated routes, reducing the spread of delays from incidents, ultimately making it easier to recover from disruption and subsequent delays

Journey times in the proposed timetable will be more realistic, taking into account the capability of the available infrastructure and the number of passengers we now carry.

Addressing these issues will ultimately lead to a more reliable and punctual train service.

4. Proposals for an expanded north to south cross-London Thameslink network from 2018

Thameslink is the brand name given to train services running through Central London serving London Blackfriars, City Thameslink, Farringdon and London St Pancras International stations (the “Core”) currently linking Bedford, Luton and St Albans City in the north with Gatwick Airport, Brighton, Wimbledon, Sutton, Sevenoaks and Orpington in the south. Thameslink will be expanded to serve many more destinations from 2018. This means a number of train services currently operated by Great Northern, Southern or Southeastern will be transferred to Thameslink during 2018.

2018 will see the return of Thameslink services stopping at London Bridge. A new tunnel link will open between London St Pancras International and Finsbury Park. This allows train services which currently start and finish at London Kings Cross to be extended to run through to new destinations south of London for the first time bringing direct trains between Cambridge, Peterborough and Gatwick Airport.

24 trains per hour (tph) will operate during peak periods (18tph during off peak periods) at frequent intervals of 2-3 minutes making full use of the new Thameslink infrastructure. New technological advances to the signalling equipment mean trains will be able to run at higher frequencies than currently possible.

FINAL issued 28/10/2017

Proposed Thameslink service patterns from 2018

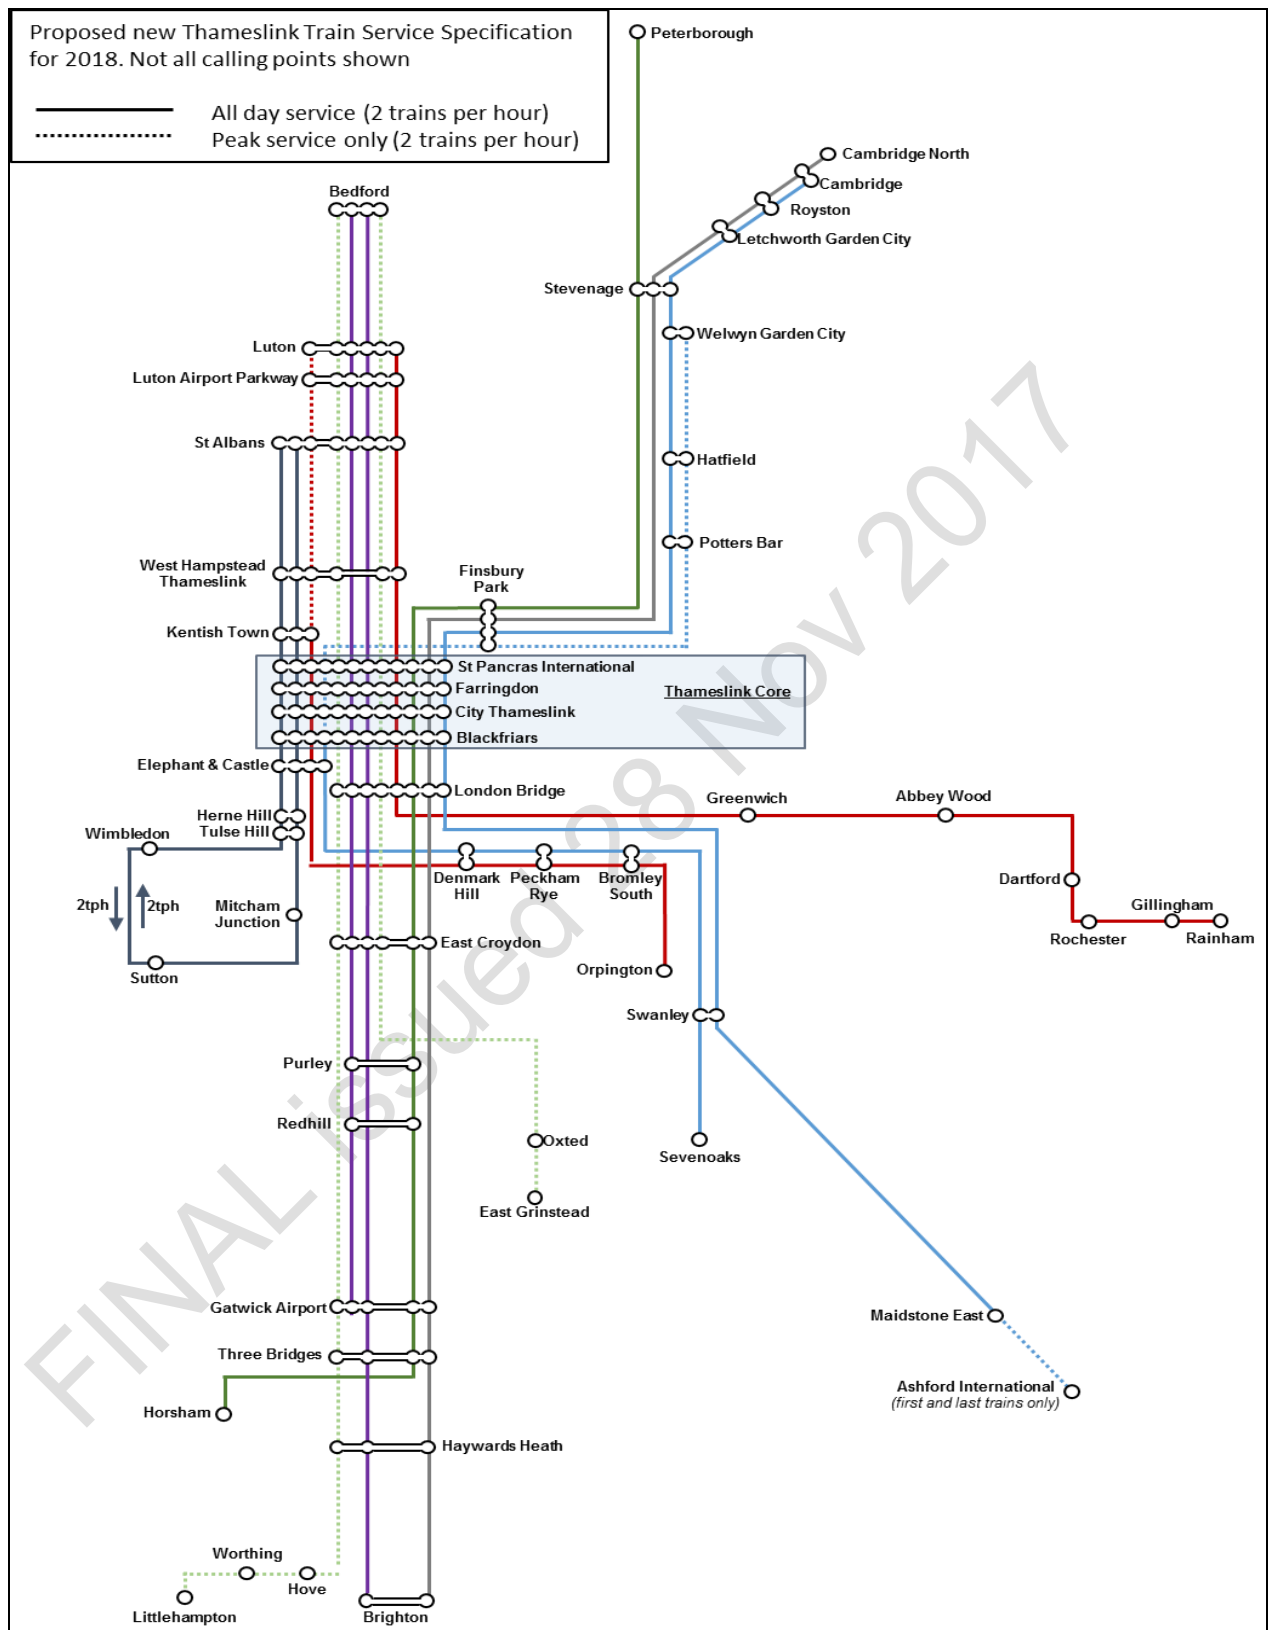

Figure 2: Proposed Thameslink service map

For the purpose of this consultation, each Thameslink route has been allocated a route number and designated as a Mainline or Metro route for easy identification. The unique route numbers feature across all material produced as part of this consultation.

Thameslink route information

Mainline routes will include first class accommodation whilst Metro routes will not.

Route	Trains per hour	Origin	Via	Destination	Days of Operation
TL1	2tph	Bedford (fast from St Albans City)	London Bridge	Brighton (fast via Gatwick Airport)	Daily
TL2	2tph	Bedford (fast from St Albans City)	London Bridge	Gatwick Airport (semi fast via Redhill)	Daily
TL3	2tph	Bedford (fast from St Albans City)	London Bridge	East Grinstead	Not Weekends
TL4	2tph	Bedford (fast from St Albans City)	London Bridge	Littlehampton (via Hove)	Not Weekends
TL5	2tph	Peterborough (semi fast)	London Bridge	Horsham (semi fast via Redhill)	Mon - Sat
	1tph				Sun
TL6	2tph	Cambridge (semi-fast)	London Bridge	Brighton (fast via Gatwick Airport)	Mon – Sat
	1tph				Sun to Three Bridges
TL7	2tph	Cambridge (stopping)	London Bridge	Maidstone East	Mon - Sat
	1 tph				Sun between Kings Cross & Cambridge
TL8	2tph	Welwyn GC (semi fast)	Elephant & Castle	Sevenoaks (via Catford Loop)	Mon-Fri only
		Blackfriars			Daily (not Mon-Fri peaks)
TL9	2tph	Luton (semi-fast)	Elephant & Castle	Orpington (via Catford Loop)	Mon-Fri only
		Kentish Town			Daily (not Mon-Fri peaks)
TL10	2tph	Luton (semi fast)	London Bridge	Medway Towns (via Greenwich)	Daily Sun to & from Kentish Town
TL11	2tph	St Albans City (stopping)	Elephant & Castle	Sutton <i>then</i> Wimbledon (via Streatham)	Daily
TL12	2tph	St Albans City (stopping)	Elephant & Castle	Wimbledon <i>then</i> Sutton (via Streatham)	Daily (Sun starts from Luton)

These proposals will mean more Thameslink services will operate to new destinations in Kent with other cross-London north to south Thameslink routes amended.

A summary of the proposed weekend changes are:

- Thameslink services reinstated to serve London Bridge with improved journey times as a result of no longer running on the South London diversion route.
- Improved services for **Radlett, Elstree & Borehamwood and Mill Hill Broadway Thameslink** with services increased from four to six trains per hour on Saturdays. These additional train services will run semi fast between Luton and Central London and continue to Greenwich, Dartford and Medway Towns.
- New cross-London journey opportunities will be created between **Cambridge – Stevenage – Central London (via London Bridge) – East Croydon – Gatwick Airport – Brighton** and also between **Peterborough – Stevenage – Central London (via London Bridge) – East Croydon – Redhill – Gatwick Airport – Horsham**. These new routes will provide direct connectivity with Gatwick Airport for the first time. These routes will double the frequency from hourly to half hourly of semi fast trains between both Cambridge and Peterborough and Central London.
- New cross-London journey opportunities providing multiple connectivity opportunities will be created between **Luton – St Albans City – West Hampstead Thameslink – Central London (via London Bridge) – Greenwich – Abbey Wood – Dartford and Medway Towns**.
- New all day train services are proposed to be introduced between **Kentish Town – Central London (via Elephant & Castle) – Catford – Bromley South – Orpington**. This is in addition to the current train services between **London Blackfriars – Elephant & Castle – Catford – Bromley South – Swanley – Sevenoaks**. The two routes combine between London Blackfriars and Bickley to provide 4tph on the Catford Loop route at all times of the weekend, doubling the frequency of Thameslink train services.
- To provide increased frequency the stopping **Cambridge** services will be linked to **Maidstone East**. These will double the stopping train frequency between Cambridge and Central London. To improve journey times between Maidstone East and Central London, and to re-instate journey opportunities previously removed in 2009, these trains will run via London Bridge (instead of Elephant & Castle). Previously the Maidstone East services were intended to be a predominately peak only. It is now proposed for this service to operate all day Mondays to Saturdays. Some services will also be extended to or from Ashford International.
- There will be improvements to Sunday services on the Wimbledon loop with earlier and later trains than present.

5. Proposed Thameslink routes

This section details the proposed Thameslink routes.

Proposed Thameslink service patterns

This section details the proposed Thameslink routes, typical calling pattern and frequency throughout the day.

Thameslink Mainline Route TL1: SATURDAY

Bedford – Luton – St Albans City – Central London (via London Bridge) – East Croydon – Gatwick Airport – Brighton

Serving: Bedford, Flitwick, Harlington, Leagrave, Luton, Luton Airport Parkway, Harpenden, St Albans City, West Hampstead, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, East Croydon, Gatwick Airport, Three Bridges, Balcombe, Haywards Heath, Wivelsfield, Burgess Hill and Brighton.

Proposed frequency (trains per hour/intervals in minutes)	
Saturday	
Bedford to and from Brighton	2 tph
	Every 30 minutes

Thameslink Mainline Route TL1: SUNDAY

Bedford – Luton – St Albans City – Central London (via London Bridge) – East Croydon – Gatwick Airport – Brighton

Serving: Bedford, Flitwick, Harlington, Leagrave, Luton, Luton Airport Parkway, Harpenden, St Albans City, West Hampstead, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, East Croydon, Gatwick Airport, Three Bridges, Balcombe, Haywards Heath, Wivelsfield, Burgess Hill, Hassocks, Preston Park and Brighton.

Proposed frequency (trains per hour/intervals in minutes)	
Sunday	
Bedford to and from Brighton	2 tph
	Every 30 minutes

Thameslink Mainline Route TL2:

Bedford – Luton – St Albans City – Central London (via London Bridge) – East Croydon – Redhill – Gatwick Airport

Serving: Bedford, Flitwick, Harlington, Leagrave, Luton, Luton Airport Parkway, Harpenden, St Albans City, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, Norwood Junction, East Croydon, Purley, Redhill, Earlswood, Salfords, Horley and Gatwick Airport.

Proposed frequency (trains per hour/intervals in minutes)		
	Saturday	Sunday
Bedford to and from Gatwick Airport	2 tph	2 tph
	Every 30 minutes	Every 30 minutes

Thameslink Mainline Routes TL1 and TL2 combine to provide four trains per hour all day every 15 minutes between Bedford, Luton, St Albans City, Central London, East Croydon and Gatwick Airport

Thameslink Mainline Route TL3:
Bedford – Luton – St Albans City – Central London (via London Bridge)
– East Croydon – Oxted – East Grinstead
MONDAY TO FRIDAY ONLY SERVICE

Thameslink Mainline Route TL4:
Bedford – Luton – St Albans City – Central London (via London Bridge)
– East Croydon – Three Bridges – Hove – Worthing – Littlehampton
MONDAY TO FRIDAY ONLY SERVICE

Thameslink Mainline Route TL5:
Peterborough – Stevenage – Central London (via London Bridge) – East
Croydon – Redhill – Gatwick Airport – Horsham

Serving: Peterborough, Huntingdon, St Neots, Sandy, Biggleswade, Arlesey, Hitchin, Stevenage, Finsbury Park, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, East Croydon, Coulsdon South, Merstham, Redhill, Horley, Gatwick Airport, Three Bridges, Crawley, Ifield, Littlehaven and Horsham.

	Proposed frequency (trains per hour/intervals in minutes)	
	Saturday	Sunday
Peterborough to and from Horsham	2 tph	1 tph (Note 1)
	Every 30 minutes	Every 60 minutes

Note 1: By May 2019 this will be 2 tph every 30 minutes.

Thameslink Mainline Routes TL2 and TL5 combine to provide four trains per hour (Monday to Saturday and three trains per hour Sunday) between Central London, East Croydon, Redhill and Gatwick Airport.

Thameslink Mainline Route TL6: SATURDAY
Cambridge (semi-fast) – Stevenage – Central London (via London
Bridge) – East Croydon – Gatwick Airport – Brighton

Serving: Cambridge, Royston, Baldock, Letchworth Garden City, Hitchin, Stevenage, Finsbury Park, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, East Croydon, Gatwick Airport, Three Bridges, Haywards Heath, Burgess Hill, Hassocks, Preston Park and Brighton.

	Proposed frequency (trains per hour/intervals in minutes)	
	Saturday	
Cambridge to and from Brighton	2 tph	
	Every 30 minutes	

Thameslink Mainline Routes TL5 and TL6 combine to provide four trains per hour every 15 minutes (Monday to Saturday) and two trains per hour every 30 minutes (Sunday) between Stevenage, Central London, East Croydon, Gatwick Airport and Three Bridges
Thameslink Mainline Routes TL1 and TL6 combine to provide four trains per hour (Monday to Saturday) and three trains per hour (Sunday) between Central London, East Croydon, Gatwick Airport, Haywards Heath and Brighton

Thameslink Mainline Route TL6: SUNDAY

Cambridge (semi-fast) – Stevenage – Central London (via London Bridge) – East Croydon – Gatwick Airport – Three Bridges

Serving: Cambridge, Royston, Baldock, Letchworth Garden City, Hitchin, Stevenage, Finsbury Park, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, East Croydon, Redhill, Gatwick Airport and Three Bridges.

Proposed frequency (trains per hour/intervals in minutes)	
Sunday	
Cambridge to and from Brighton	2 tph
	Every 30 minutes (Note 1)

Note 1: Initially this service will operate between Cambridge and Three Bridges only every 60 minutes. The online journey planner reflects this.

Thameslink Mainline Routes TL5 and TL6 combine to provide four trains per hour every 15 minutes (Monday to Saturday) and two trains per hour every 30 minutes (Sunday) between

*Stevenage, Central London, East Croydon, Gatwick Airport and Three Bridges
Thameslink Mainline Routes TL1 and TL6 combine to provide four trains per hour (Monday to Saturday) and three trains per hour (Sunday) between Central London, East Croydon, Gatwick Airport, Haywards Heath and Brighton*

Thameslink Mainline Route TL7: SATURDAY

Cambridge – Stevenage – Central London (via London Bridge) – Swanley – Maidstone East – (Ashford International)

Serving: Cambridge, Foxton, Shepreth, Meldreth, Royston, Ashwell & Morden, Baldock, Letchworth Garden City, Hitchin, Stevenage, Knebworth, Welwyn North, Welwyn Garden City, Hatfield, Potters Bar, Finsbury Park, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, Swanley, Otford, Borough Green & Wrotham, West Malling and Maidstone East.

A limited number of trains will be extended between Maidstone East and Ashford International serving Bearsted only.

Proposed frequency (trains per hour/intervals in minutes)	
Saturday	
Cambridge to and from Maidstone East	2 tph
	Every 30 minutes

Thameslink Mainline Route TL7: SUNDAY

Cambridge North – Stevenage – Kings Cross

Serving: Cambridge North, Cambridge, Foxton, Shepreth, Meldreth, Royston, Ashwell & Morden, Baldock, Letchworth Garden City, Hitchin, Stevenage, Knebworth, Welwyn North, Welwyn Garden City, Hatfield, Potters Bar, Finsbury Park and Kings Cross.

		Proposed frequency (trains per hour/intervals in minutes)	
		Sunday	
Cambridge to and from Kings Cross		1 tph	
		Every 60 minutes	

Thameslink Mainline Routes TL6 and TL7 combine to provide four trains per hour (Saturdays) between Cambridge, Stevenage and Central London.

Route GN1 will also provide additional fast services between Cambridge and London Kings Cross with a combined frequency of six trains per hour

Thameslink Metro Route TL8:

London Blackfriars - Elephant & Castle – Catford – Bromley South – Swanley – Otford - Sevenoaks

Serving: London Blackfriars, Elephant & Castle, Denmark Hill, Peckham Rye, Nunhead, Crofton Park, Catford, Bellingham, Beckenham Hill, Ravensbourne, Shortlands, Bromley South, Bickley, St Mary Cray, Swanley, Eynsford, Shoreham, Otford, Bat & Ball and Sevenoaks.

		Proposed frequency (trains per hour/intervals in minutes)	
		Saturday	Sunday
London Blackfriars to and from Sevenoaks		2 tph	2 tph
		Every 30 minutes	Every 30 minutes

Thameslink Metro Route TL9:

Kentish Town – Central London (via Elephant & Castle) – Catford – Bromley South – Orpington

Serving: Kentish Town, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, Elephant & Castle, Denmark Hill, Peckham Rye, Nunhead, Crofton Park, Catford, Bellingham, Beckenham Hill, Ravensbourne, Shortlands, Bromley South, Bickley, Petts Wood and Orpington.

		Proposed frequency (trains per hour/intervals in minutes)	
		Saturday	Sunday
Kentish Town to and from Orpington		2 tph	2 tph
		Every 30 minutes	Every 30 minutes (Note 1)

Note 1: Between May and December 2018 it is not possible to run these services due to engineering works.

Thameslink Metro Routes TL8 and TL9 combine to provide four trains per hour (Saturdays) between Central London, Catford, Bromley South and Bickley. During Saturday daytimes only Route TL9 will operate north of London Blackfriars to and from Kentish Town.

Thameslink Metro Route TL10: SATURDAY

Luton – Central London (via London Bridge) – Greenwich – Abbey Wood – Dartford – Rochester – Rainham

Serving: Luton, Luton Airport Parkway, Harpenden, St Albans City, Radlett, Elstree & Borehamwood, Mill Hill Broadway, West Hampstead Thameslink, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, Deptford, Greenwich, Maze Hill, Westcombe Park, Charlton, Woolwich Arsenal, Plumstead, Abbey Wood, Slade Green, Dartford, Stone Crossing, Greenhithe, Swanscombe, Northfleet, Gravesend, Higham, Strood, Rochester, Chatham, Gillingham and Rainham.

Proposed frequency (trains per hour/intervals in minutes)	
Saturday	
Luton to and from Rainham	2 tph
	Every 30 minutes

Thameslink Metro Route TL10: SUNDAY

Kentish Town – Central London (via London Bridge) – Greenwich – Abbey Wood – Dartford – Rochester – Rainham

Serving: Kentish Town, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, London Bridge, Deptford, Greenwich, Maze Hill, Westcombe Park, Charlton, Woolwich Arsenal, Plumstead, Abbey Wood, Slade Green, Dartford, Stone Crossing, Greenhithe, Swanscombe, Northfleet, Gravesend, Higham, Strood, Rochester, Chatham, Gillingham and Rainham.

Proposed frequency (trains per hour/intervals in minutes)	
Sunday	
Kentish Town to and from Rainham	2 tph
	Every 30 minutes

Note: It has not been possible at this time for this service to operate to and from Luton.

Thameslink Metro Route TL11: SATURDAY

St Albans City – Central London (via Elephant & Castle) – Tulse Hill – Sutton – Wimbledon (Loop)

Serving: Radlett, Elstree & Borehamwood, Mill Hill Broadway, Hendon, Cricklewood, West Hampstead Thameslink, Kentish Town, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, Elephant & Castle, Loughborough Junction, Herne Hill, Tulse Hill, Streatham, Mitcham Eastfields, Mitcham Junction, Hackbridge, Carshalton and Sutton.

Proposed frequency (trains per hour/intervals in minutes)	
Saturday	
St Albans City to Wimbledon (Loop)	2 tph
	Every 30 minutes

Thameslink Metro Route TL11: SUNDAY

St Albans City – Central London (via Elephant & Castle) – Tulse Hill – Sutton – Wimbledon (Loop)

Serving: Radlett, Elstree & Borehamwood, Mill Hill Broadway, Hendon, Cricklewood, West Hampstead Thameslink, Kentish Town, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, Elephant & Castle, Loughborough Junction, Herne Hill, Tulse Hill, Streatham, Mitcham Eastfields, Mitcham Junction, Hackbridge, Carshalton and Sutton.

Proposed frequency (trains per hour/intervals in minutes)	
Sunday	
St Albans City to Wimbledon (Loop)	2 tph (Note 1)
	Every 30 minutes

Note 1: Until 12:00 these trains will run between Blackfriars and Sutton. After 12:00 these trains will run between St Albans and Sutton.

Thameslink Metro Route TL12: SATURDAY

St Albans City – Central London (via Elephant & Castle) – Tulse Hill – Wimbledon – Sutton (Loop)

Serving: Radlett, Elstree & Borehamwood, Mill Hill Broadway, Hendon, Cricklewood, West Hampstead Thameslink, Kentish Town, London St Pancras International, Farringdon, City Thameslink, London Blackfriars, Elephant & Castle, Loughborough Junction, Herne Hill, Tulse Hill, Streatham, Tooting, Haydons Road, Wimbledon, Wimbledon Chase, South Merton, Morden South, St Helier, Sutton Common, West Sutton and Sutton.

Proposed frequency (trains per hour/intervals in minutes)	
Saturday	
St Albans City to Wimbledon (Loop)	2 tph
	Every 30 minutes

Thameslink Metro Route TL12: SUNDAY

Luton – Central London (via Elephant & Castle) – Tulse Hill – Wimbledon – Sutton (Loop)

Serving: Luton, Luton Airport, Harpenden, St Albans City, Radlett, Elstree & Borehamwood, Mill Hill Broadway, (Hendon), (Cricklewood), West Hampstead Thameslink, (Kentish Town), London St Pancras International, Farringdon, City Thameslink, London Blackfriars, Elephant & Castle, Loughborough Junction, Herne Hill, Tulse Hill, Streatham, Tooting, Haydons Road, Wimbledon, Wimbledon Chase, South Merton, Morden South, St Helier, Sutton Common, West Sutton and Sutton.

Proposed frequency (trains per hour/intervals in minutes)	
Sunday	
Luton to Wimbledon (Loop)	2 tph (Note 1)
	Every 30 minutes

Note 1: After 12:00 these trains will not call at Hendon, Cricklewood or Kentish Town between May 2018 and December 2019 due to East Midlands Trains timetable requirements. We aim to re-instate the stops from December 2019 timetable change.

Thameslink Metro Routes TL11 and TL12 combine to provide four trains per hour (daily) between St Albans City, Central London, Elephant & Castle, Herne Hill, Tulse Hill and Streatham.

6. Proposals for a redesigned and simplified Southern network

Southern is the brand name given to train services operating between Central London, South London and the South Coast through Surrey, West Sussex, East Sussex and parts of Kent and Hampshire.

A range of improvements are proposed aimed at simplifying the network by introducing new and revised routes, improving journey times on a number of routes through changes to calling patterns but protecting journeys that are important for passengers. Our proposals include a complete redesign of the network addressing the weaknesses in the current structure.

A number of train services currently operated by Southern will, by 2018, be transferred to Thameslink, creating new south to north journey opportunities to Cambridge and improving connectivity with future Crossrail trains at Farringdon. National and international connectivity will be available at London St Pancras International.

Southern route information

Route	Trains per hour	Origin	Via	Destination	Days of Operation
SN1	2 tph	London Victoria	Gatwick Airport	Brighton	Daily (not Mon-Fri peaks)

Serving: Hastings, Rye, Appledore, Ham Street and Ashford International.

Limited stops are made at Three Oaks, Doleham and Winchelsea.

Proposed Frequency (trains per hour / intervals in minutes)		
	Saturday	Sunday
Hastings to and from Ashford International	1tph	1tph
	Every 60 minutes	Every 60 minutes

FINAL issued 28 Nov 2017

8. Gatwick Express – dedicated airport link

Gatwick Express is the brand name for premium train services between London Victoria and Gatwick Airport. At peak times, these trains operate to and from Brighton.

The Gatwick Express will remain as a premium airport service running non-stop up to four times an hour, in both directions, between London Victoria and Gatwick Airport every day meeting the requirements of airport passengers.

New Class 387 Electrostar trains have been introduced onto this route. These new trains have been designed specifically to meet the needs of both commuters and airport passengers with dedicated luggage space, comfortable 2x2 seating throughout, air conditioning, easier access boarding and alighting, charging points and free on board wi-fi.

The wider Brighton Main Line timetable is being redesigned and as a result the timings of the Gatwick Express trains will change, whilst frequency remains the same. Journey times between London Victoria and Gatwick Airport will be typically 30 minutes or less.

Proposed Gatwick Express service patterns

This section details the proposed Gatwick Express route.

Gatwick Express Route GX1:

London Victoria – Gatwick Airport – Brighton

Serving: London Victoria, Gatwick Airport, Brighton.

	Proposed Frequency (trains per hour / intervals in minutes)	
	Saturday	Sunday
Victoria to Gatwick	2tph	4tph
	Every 30 minutes	Every 15 minutes
Victoria to Gatwick and Brighton	2tph	No Service
	Every 30 minutes	

	Proposed Frequency (trains per hour / intervals in minutes)	
	Saturday	Sunday
Brighton & Gatwick to Victoria	2tph	No Service
	Every 30 minutes	
Gatwick to Victoria	2tph	4tph
	Every 30 minutes	Every 15 – 20 minutes

9. Proposals to transform the Great Northern network

Great Northern is the brand name given to train services between London Kings Cross and Peterborough, Cambridge and Kings Lynn; and services running between Moorgate, Welwyn Garden City, Hertford North, Stevenage and Letchworth Garden City.

Great Northern Mainline

During 2018 the Great Northern service will be transformed with improved connectivity and frequency to meet the growing local economy throughout the East Anglia region of Peterborough and Cambridge.

New trains will be introduced to improve the customer experience and meaning Great Northern will go from having one of the oldest fleets in the country to the youngest. This transformation started at the end of 2016.

Many train services currently operated by Great Northern will transfer to Thameslink during 2018 creating new north to south cross London journey opportunities linking East Anglia with direct trains to Gatwick Airport and Brighton for the very first time.

Great Northern Metro

Great Northern Metro services between Stevenage and Hertford North

Planned Network Rail infrastructure works at Stevenage to create a terminating bay platform are not expected to be completed for the timetable change as originally expected. Without this new platform, there is insufficient space at Stevenage to operate these trains in addition to the service improvements we are proposing for King's Lynn and Cambridge routes. Therefore we are proposing to run a bus between Stevenage and Watton-at-Stone and another bus between Stevenage and Hertford North. It is possible to run trains between Stevenage and Hertford North on Sundays.

9. Proposed Great Northern service patterns

This section details the proposed Great Northern routes.

Great Northern Mainline Route GN1 (Kings Lynn and Cambridge):

Kings Lynn – Ely – Cambridge – London Kings Cross

Serving: Kings Lynn, Watlington, Downham Market, Littleport, Ely, Waterbeach, Cambridge North, Cambridge and London Kings Cross.

	Proposed Frequency (trains per hour / intervals in minutes)
